Curriculum vitae

C. Bradford Biddle 650 NE Holladay Street, Suite 1600 Portland, OR 97232 USA +1 (503) 502-1259 <u>brad@biddle.law</u> <u>http://biddle.law</u>

Academic appointments

Visiting Scholar, Lewis and Clark Law School, 2014 – present.

Research focus areas: a taxonomy of strategic approaches to interoperability standards taken by different firms; limitations on the effectiveness of patent disclosure rules in standards setting organizations; open hardware licensing models; the relationship between open source and open standards; patent remedies for complex products.

Research Fellow, Center for Law, Science & Innovation, Arizona State University College of Law, 2007-present.

Research focus areas: technology standards; patent remedies for complex products; sustainable biofuels; carbon capture technology and policy.

Adjunct Professor, Arizona State University College of Law, 2010, 2002.

Taught Technology Standards Seminar (2010) and Internet Law (2002).

Non-Residential Fellow, Center for Internet and Society, Stanford Law School, 2007-2008.

Research focus areas: economics of copyright law and the impact on innovation.

Adjunct Professor, California Western School of Law, 1999.

Taught Internet Law.

Professional positions

Principal, C. Bradford Biddle, P.C., 2015 - present

Independent legal and consulting practice focused on facilitating interoperability in technology ecosystems. Outside general counsel for the MIPI Alliance, a group of 250+ companies that defines foundational mobile device hardware standards, and for a joint

industry-academic research consortium focused on autonomous vehicles. Academic liaison for a Fortune 50 information technology company.

Director and Treasurer, Joint Development Foundation, 2015 - present

JDF is a non-profit that incubates nascent interoperability standards and source code collaboration projects projects by providing a turnkey legal and operational infrastructure. Current projects include the Alliance for Open Media and the 3MF Consortium.

Founder and President, Open Bike, Inc., 2014 - present

Open Bike Inc. is a social benefit ("B") corporation focused on advancing the vision of the Open Bike Initiative project, which launched in 2013. OBI aims to transform bike sharing with an approach based on open hardware, open software and open standards.

Standards Counsel (and other roles), Intel Corporation, 2000-2015

From 2008 to 2015, served as Standards Counsel. Led the SIGs and Standards Practice Group (the Intel legal team focused on standards development efforts and other related industry initiatives worldwide). Engaged with hundreds of different standards and open source efforts. From 2003-2008 served as lead counsel for the Systems Technology Lab, leading Intel's involvement with WIPO and coordinating various copyright policy and open source projects. From 2000-2003 was the lead attorney for Intel's supplier-focused e-business group.

Founder, Policy Director, Desert Biofuels Initiative, 2007 – 2011.

Desert Biofuels Initiative, Inc. was a Phoenix, Arizona-based non-profit that performed research and promoted the development of a sustainable biofuels infrastructure.

General Counsel, VP of Business Development, MP3.com Inc., 1999

Part of early stage founding team of Internet music pioneer. Closely involved in Sequoia Capital-led venture financing round and in key music copyright controversies.

Associate, Cooley Godward LLP, 1997 – 1999

Associate attorney in the Information Technology Group of leading Silicon Valley-based technology law firm.

Education

J.D. (cum laude), University of San Diego School of Law, 1997.

Order of the Coif; Associate Editor, San Diego Law Review.

B.A, University of California, San Diego, 1994.

Bar admissions

California, 1997 – present Oregon, 2015 - present

Electronic Payments Forum, San Diego, CA. Presentation on digital signature legislation. January, 1997.

The Common Solutions Group, Berkeley, CA. Presentation on digital signature legislation. December, 1996.

Projects and workshops

Co-organizer, International Patent Remedies for Complex Products (INPRECOMP) Project.

Involves two workshops, the first in London hosted by Kings College London on October 27-28, 2016, and the second at Arizona State University in Phoenix, Arizona on March 23-24, 2017. These workshops will be used to develop a series of jointly authored academic white papers on different aspects of patent remedies for complex products.

Founder and coordinator, Open Bike Initiative, 2013-2014 (and ongoing in modified form).

Collaborative project involving Portland State, Intel, Nike and others, focused on performing and publishing research and developing an open source technology and methodology for bike sharing.

Initiator and Coordinator, Zero Emission Fabs project, 2011.

Collaborative research project involving Arizona State and Intel, focused on performing carbon capture of factory emissions using algae and converting that algae to biofuel.

Co-organizer, ASU Center for Law, Science and Innovation Standards and Consortia Roundtables, 2010 and 2011.

Participants from academia, government, industry, and law firms collaboratively discussed and evaluated issues associated with forming and operating technology standards development organizations and similar technology consortia. The 'Expanding Role and Importance of Standards' article resulted from the 2011 workshop.
